**NOTICE OF PROPOSED RULE MAKING
AND
ORDER TO SHOW CAUSE**

Adopted: July 27, 2005

Released: July 29, 2005

Comment date: September 19, 2005

Reply comment date: October 4, 2005

By the Assistant Chief, Audio Division, Media Bureau:

1. The Audio Division has before it a petition for rule making filed jointly by L.M. Communications of Kentucky, LLC ("LMC"), licensee of Station WBTF(FM), Midway, Kentucky, and joined by Gateway Radio Works, Inc. ("Gateway"), licensee of Station WKCA(FM), Owingsville, Kentucky (jointly, "Petitioners"). LMC proposes to substitute Channel 298C3 for Channel 300A at Midway, Kentucky and modify Station WBTF's license accordingly. To accommodate the Midway substitution, LMC proposes to substitute Channel 295A for 299A at a new site at Owingsville, Kentucky and modify Gateway's license for Station WKCA accordingly. Gateway agrees to this modification. Petitioners pledge to file applications to implement the modifications for their respective stations if the proposal is granted.

2. To accommodate the proposed Midway substitution, LMC also requests the substitution of Channel 300A for Channel 299A at Falmouth, Kentucky and modification of the Station WIOK (FM) license accordingly.¹ To this end, we are issuing an *Order to Show Cause* directed to Hammond Broadcasting, Inc., Ltd., licensee of Station WIOK(FM) to show cause why its license should not be modified to specify operation on Channel 300A. Section 316(a) of the Communications Act of 1934, as amended, permits the Commission to modify an authorization if such action is in the public interest. Further, pursuant to Section 316(a), we are required to notify the affected station of the proposed action, as well as the public interest reasons for the action, and afford at least 30 days to respond. This procedure is set forth in Section 1.87 of the Commission's rules.²

3. Whenever an existing licensee is ordered to switch frequencies to accommodate a channel allotment, we require the proponent of the channel allotment to make a commitment to reimburse the

¹ Channel 300A can be allotted to Falmouth at Station WIOK's current license site at coordinates 38-35-13 NL and 84-21-40 WL.

affected station for the costs incurred in changing frequencies.³ LMC states that it will reimburse the licensee of Station WIOK for reasonable costs associated with changing to Channel 300A at Falmouth.⁴ Gateway has consented to the proposed changes to its site and frequency.

4. In support of the proposal, LMC states that the channel substitutions it proposes will result in a preferential arrangement of allotments. It claims that there will be no change in the service to be rendered by Station WIOK. It also states that the proposed modification to Station WBTF would result in a net gain of 2,252 square kilometers in area with a net population gain of 142,376 persons. The loss area would be 34.6 square kilometers with a population of 145 persons, all of whom would continue to be well-served with five or more reception services.

5. We believe the proposed channel changes warrant consideration since they could allow Station WBTF to expand its coverage area. Our analysis shows that the proposed upgraded facility at Midway, with its change in antenna site would result in signal coverage of nearly 99 percent of the station's current service area within the proposed expanded service contour area. Thus, our analysis agrees with LMC's showing that this proposal would result in a loss of service to a very small area of approximately 32.7 square kilometers, which will remain well-served with five or more services. However, our analysis shows that the population in that loss area would be 1,443 persons. Because LMC's loss area population is only 145, we request that LMC address this discrepancy in their comments. Our analysis shows that the gain area for Station WBTF would cover a net area of 2,316.6 square kilometers, with a net population gain of 141,179.

6. Channel 298C3 can be allotted at Midway, Kentucky at a site 12.3 kilometers (7.6 miles) southeast of the community.⁵ Channel 300A can be allotted at Falmouth at Station WIOK's current site 10.3 kilometers (6.4 miles) south of the community.⁶ Channel 295A can be allotted at Owingsville at Petitioners' requested site 14.0 kilometers (8.7 miles) east of the community.⁷

7. Accordingly, we seek comments on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, for the communities listed below, to read as follows:

<u>Channel No.</u>		
<u>City</u>	<u>Present</u>	<u>Proposed</u>
Midway, Kentucky	300A	298C3
Falmouth, Kentucky	298A	300A
Owingsville, Kentucky	299A	295A

8. Pursuant to Section 1.87 of the Commission's Rules, Hammond Broadcasting, Inc., Ltd., licensee of Station WIOK(FM), may, no later than September 12, 2005, file a written statement showing with particularity why its construction permit should not be modified as proposed in this *Notice of Proposed Rule Making and Order to Show Cause*. The Commission may call upon the licensee to furnish additional information. If the licensee raises any substantial and material questions of fact, a hearing may be required to resolve such questions of fact pursuant to Section 1.87 of the Rules. Upon review of the
